

# Neighborhood Meeting

The process for early development review begins with the pre-application meeting. The City meets with the applicant to discuss project feasibility. At this point the applicant is provided information on the City's requirements, including the requirement for conducting the Neighborhood Meeting, the review process and timing.

The purpose of the Neighborhood Meeting is to provide an opportunity for the applicant to inform the neighborhood about the project early in its planning stages and ensure that the applicant pursue early citizen participation. The idea is to give property owners in the area an opportunity to learn about the proposals that affect them and to try to identify concerns in the early stages of the application process. Accordingly, the issues identified may be addressed by the applicant before preparing the formal plans for the application.

## Meeting Requirements

- ☐ Notice of the neighborhood meeting must be provided by the applicant and must include the date, time, and location of the neighborhood meeting and a description of the project, zoning of the property, site and vicinity maps and the land use applications that would be required.
